The OdorKlenz-Air Cartridge Is Effective Against Odors Caused By:

- Disasters
- Heavy Use
- Negligence
- Decomposition

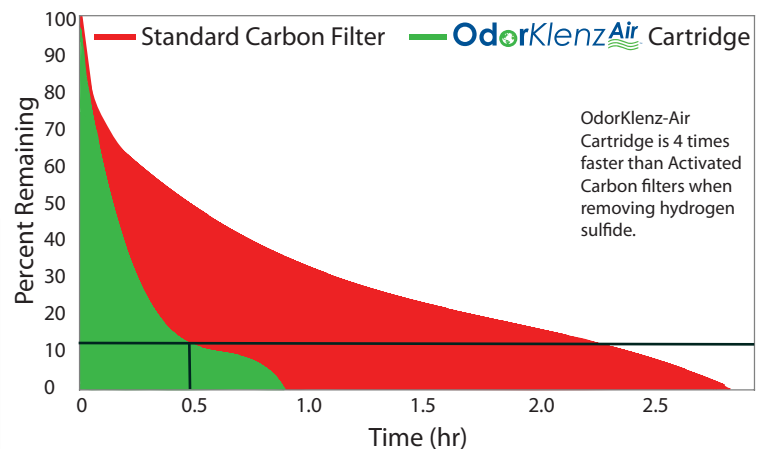

OdorKlenz Works By:

- Offering quick knock down of airborne odors
- Trapping, destroying and removing odors, VOCs and air particulates

Ammonia Removal

Hydrogen Sulfide Removal

Fire and Smoke Damage Remediation

OdorKlenz provides new levels of odor elimination for buildings affected by fire and smoke damage.

OdorKlenz-Air Cartridge rapidly knocks down strong and harmful odors more effectively than Ozone and Activated Carbon.

Problem: A liquor store was damaged by fire and smoke throughout the 1200 square foot building.

Action: An air scrubber with an OdorKlenz-Air Cartridge was placed in the damaged area for 2-3 hours.

Result: "After 2 1/2 hours, I could not believe the odor had been eliminated completely. We were very impressed."

Water Damage Remediation

Water damage causes growth of mold and bacteria leading to a musty odor, if not resolved immediately.

The OdorKlenz-Air Cartridge eliminates this odor, actually improving Indoor Air Quality and reducing overall cleaning time.

Problem: A basement 1 inch deep with sewage. "The smell was the worst I've experienced in my history with ServiceMaster."

Action: The air scrubber with an OdorKlenz-Air Cartridge ran for 3 hours.

Result: "We met the Customer upstairs and to their satisfaction and our surprise, the odor was gone. It far outperforms any other filter. It just works."

Biological Based Odor Elimination

Crime scenes and bio clean up can begin immediately with OdorKlenz-Air Cartridge offering safe and real time odor elimination environment for crews to work around.

Tough odors stemming from decomposition will be eliminated fast.

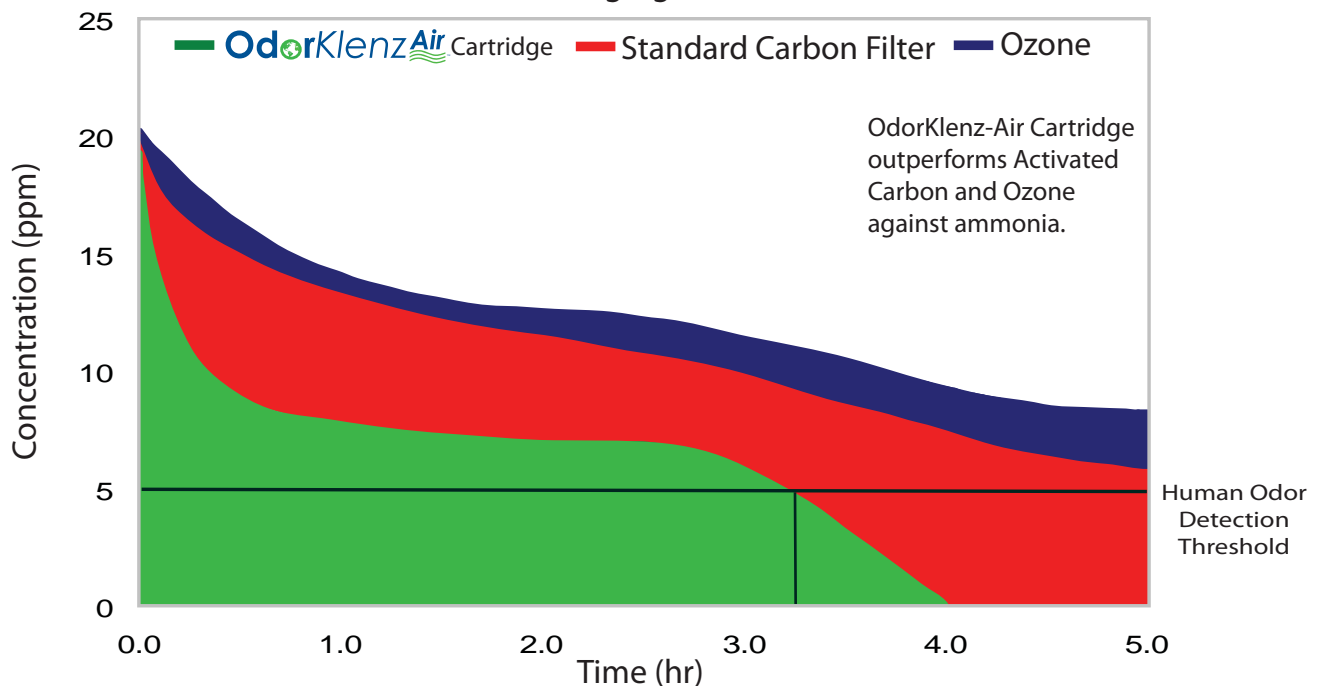

Problem: 7-10 days after death, a body was located in a 10x10 cinder block dormitory room.

Action: The air scrubber with an OdorKlenz-Air Cartridge ran for 2-3 days while materials from the room were removed.

Result: "The representative for the building reluctantly came to inspect and was very pleased when no odor was detected and the room was ready for use again."
